

You find Kosher certificates easily, by using the links you find for each product, in the column K-ID

These links work also when the certificate has been revised to a new version.

If you do not have access to the Kosher database, you have to register with a user name and password. The request of access comes automatically.

When you are registered, you return to this email, click for required product, and the certificate will pop up. The links will also work for the annual revision of certificates.

Please contact me if you have any problems and I will do my best to help you.

| Product | K-ID |
